

**FAMILY COMMUNITY CHRISTIAN SCHOOL**  
**DUAL ENROLLMENT OPPORTUNITIES**  
***(Subject to changes in faculty and requirements)***

Family Community Christian School offers students the opportunity to earn college credits while working on their high school diploma. Courses are offered through Louisiana's public university system campuses and credits earned can be used to help fulfill a student's requirements for an Associate of Arts Degree. Many FCCS dual enrollment graduates have entered the university system as sophomores!

To qualify for dual enrollment courses, a student must have achieved Junior standing and have as a minimum the following ACT Scores:

**ACT COMPOSITE**            **19**  
**MATH**                        **19\* (can be <19 until second semester senior year)**  
**ENGLISH**                   **18 (can be <18 until second semester senior year if Math score is 19)**

In our efforts to promote the educational goals of our students, FCCS offers qualifying juniors one dual enrollment class each semester with the course fees waived. FCCS offers each qualifying senior two dual enrollment classes each semester with course fees waived. Students wishing to enroll in additional dual enrollment courses are charged only \$150 per course. Parents will receive a bill for any additional course taken.

Before students can register for any dual enrollment course, they must first apply to the corresponding college for acceptance into the program. Eligible students are contacted by an FCCS High School advisor and asked to complete the online application process. Printed copies are sent home and must be signed by the parent/guardian and returned to the school within the stated due dates.

A description of how each course is offered for the 2019-2020 year appears below.

The calendar for each college represented may be slightly different than that of FCCS. It is the student's responsibility to follow the scheduling requirements associated with his/her dual enrollment selections. Delta Classes normally begin prior to our first day of school.

**Dual enrollment courses require college level course work which is more complex and requires more effort than regular high school courses. Students should be prepared to dedicate approximately 1 hour of study time per night for each dual enrollment class taken.**
